Investments in the Portfolio are not deposits or obligations of, or guaranteed or endorsed by, any bank and are not insured or guaranteed by the FDIC, the Federal Reserve Board or any other government agency. You could lose money if you sell when the Portfolio's share price is lower than when you invested.

Past performance is no guarantee of future performance. The general market views expressed in this report are opinions based on market and other conditions through the end of the reporting period and are subject to change without notice. These views are not intended to predict the future performance of the Portfolio or the securities markets.

This Portfolio is intended to be a funding vehicle for variable annuity contracts and variable life insurance policies (collectively "Policies") offered by the separate accounts of various insurance companies. Portfolio shares may also be offered to qualified pension and retirement plans and accounts permitting accumulation of assets on a tax-deferred basis ("Eligible Plans"). Individuals may not purchase shares directly from the Portfolio.

Prospective investors should refer to the Portfolio's prospectuses for a discussion of the Portfolio's investment objective, strategies and risks. Call J.P. Morgan Funds Service Center at 1-800-480-4111 for a prospectus containing more complete information about the Portfolio, including management fees and other expenses. Please read it carefully before investing.

LETTER TO SHAREHOLDERS

FEBRUARY 13, 2023 (Unaudited)

Dear Shareholder,

Financial markets have rebounded somewhat as the U.S. and other developed market economies have shown notable resilience in the face of higher inflation, rising interest rates and the ongoing war in Ukraine. While the factors that weighed on equity and bond markets in 2022 largely remain, there are signals that inflationary pressures may have peaked and the long-term economic outlook appears positive.

“Investors may face continued economic and geopolitical challenges in the year ahead. However, some of the acute risks encountered in 2022 appear to have receded and last year’s reset in asset prices may provide attractive investment opportunities.”

– Brian S. Shlissel

While U.S. economic growth was surprisingly strong in the closing months of 2022, with broad gains in employment and consumer spending in the final months of the year, the U.S. Federal Reserve’s efforts to counter inflationary pressure through sharply higher interest rates could slow economic momentum in the months ahead.

Corporate earnings have been squeezed by higher costs for materials and labor, while the strong U.S. dollar has hindered export revenues. However, the impact of higher prices and interest rates has not landed on all sectors of the economy evenly. Energy sector profits have soared over the past year, while earnings in housing and construction sectors have declined.

Across Europe, the war in Ukraine has driven up prices for energy, food and a range of other goods and has fueled negative consumer sentiment. The prolonged nature of the conflict and its potential to spread remain key concerns among policymakers, diplomats, military planners, economists and investors. It is worth noting that Europe’s largest industrialized nations in concert with the European Union have moved swiftly to secure alternatives to Russian sources of natural gas and petroleum, which has eased an energy crisis that began last year.

Investors may face continued economic and geopolitical challenges in the year ahead. However, some of the acute risks encountered in 2022 appear to have receded and last year’s reset in asset prices may provide attractive investment opportunities. A long-term view and a properly diversified portfolio, in our opinion, remain key elements to a successful investment approach.

Our broad array of investment solutions seeks to provide investors with ability to build durable portfolios that can help them meet their financial goals.

Sincerely,

A handwritten signature in black ink, appearing to read 'B. Shlissel', written in a cursive style.

JPMorgan Insurance Trust U.S. Equity Portfolio

PORTFOLIO COMMENTARY

TWELVE MONTHS ENDED DECEMBER 31, 2022 (Unaudited)

REPORTING PERIOD RETURN:

Portfolio (Class 1 Shares)*	(18.69)%
S&P 500 Index**	(18.11)%
Net Assets as of 12/31/2022 (In Thousands)	\$119,463

INVESTMENT OBJECTIVE***

The JPMorgan Insurance Trust U.S. Equity Portfolio (the "Portfolio") seeks to provide high total return from a portfolio of selected equity securities.

HOW DID THE MARKET PERFORM?

Overall, financial markets tumbled in the first three quarters of 2022, but rebounded moderately in the final months of the year. Equity markets turned in their worst first-half performance since 1970, amid accelerating inflation, pandemic lockdowns across China and Russia's invasion of Ukraine.

The S&P 500 Index, which gauges the performance of U.S. large-cap equities, reached a new closing high on January 3, 2022, bolstered by record high corporate earnings, sales, cash flows, share repurchases and dividends. However, investor sentiment began to sour as accelerating inflation started to erode consumer confidence and raise expectations for an increase in benchmark interest rates by the U.S. Federal Reserve (the "Fed").

Russia's invasion of Ukraine at the end of February 2022 initiated a sell-off in global financial markets that was further fueled by the highest U.S. inflation rate in more than 40 years. Equity prices recovered somewhat in March 2022 amid better-than-expected corporate earnings. However, the general trend in global financial markets was downward throughout the year.

In response to accelerating inflationary pressure, the Fed raised its benchmark interest rate mid-March, the first increase since December 2018. The central bank followed with six more rate increases over the course of 2022. The Bank of England, which began raising interest rates in late 2021, also continued to raise interest rates throughout the year, while the European Central Bank waited until June before sharply raising interest rates for the first time in 11 years.

In the U.S., equity prices experienced a sharp sell-off in August and September 2022 that coincided with U.S. Federal Reserve policy guidance on further interest rate increases. However, corporate earnings for both the second and third quarters of 2022 generally were better than expected given a cooling economy and slower consumer spending. Meanwhile, the U.S.

unemployment rate remained historically low - hovering between 3.5% and 3.7% for the six-month period - and by the end of 2022 data indicated some inflationary pressures had eased.

For the twelve-month period, leading equity and bond market indexes were mostly negative, with non-U.S. developed markets equities outperforming both U.S. and emerging markets generally equities.

WHAT WERE THE MAIN DRIVERS OF THE PORTFOLIO'S PERFORMANCE?

The Portfolio's Class 1 Shares underperformed the S&P 500 Index (the "Benchmark") for the twelve months ended December 31, 2022.

The Portfolio's underweight position in the commodities sector and its overweight position in the media sector were leading detractors from performance relative to the Benchmark, while the Portfolio's security selection in the pharmaceutical/medical technology sector and the industrial cyclical sector was a leading contributor to relative performance.

Leading individual detractors from relative performance included the Portfolio's out-of-Benchmark positions in Shopify Inc. and Snap Inc., and its overweight position in Advance Micro Devices Inc. Shares of Shopify, an e-commerce platform provider, fell early in the period after the company reported lower-than-expected earnings and revenue for the second quarter of 2022. Shares of Snap, an internet camera and communications service, fell amid declines in company revenue during the period. Shares of Advanced Micro Devices, a semiconductor manufacturer, fell along with the broader semiconductor sub-sector amid lower industry growth forecasts and changes in global technology supply chains.

Leading individual contributors to relative performance included the Portfolio's overweight positions in AbbVie Inc., Norfolk Southern Co. and Mastercard Inc. Shares of AbbVie, a pharmaceuticals developer and manufacturer, rose amid a string of regulatory approvals for various drug candidates late in the period. Shares of Norfolk Southern, a freight railroad operator, rose as labor negotiations avoided a strike during the period. Shares of Mastercard, a credit card and financials

transactions processor, rose after the company increased its quarterly dividend and unveiled a \$9 billion share repurchase plan.

HOW WAS THE PORTFOLIO POSITIONED?

The portfolio managers employed a bottom-up fundamental approach to stock selection, researching companies to determine what the portfolio managers believed to be each company's underlying value and potential for future earnings growth. As a result of the portfolio managers' bottom-up fundamental approach to stock selection, the Portfolio's largest overweight positions relative to the Benchmark were in the big banks & brokers and utilities sectors and its largest underweight positions were in the consumer staples and software & services sectors.

TOP TEN HOLDINGS OF THE PORTFOLIO AS OF DECEMBER 31, 2022	PERCENT OF TOTAL INVESTMENTS

JPMorgan Insurance Trust U.S. Equity Portfolio

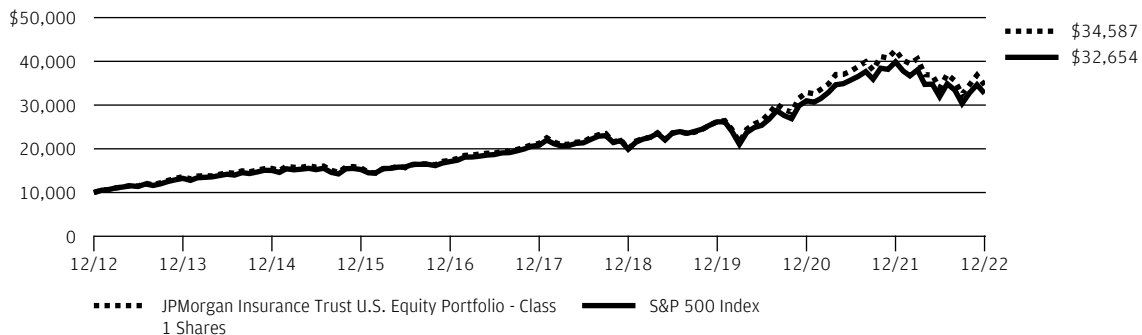

PORTFOLIO COMMENTARY

TWELVE MONTHS ENDED DECEMBER 31, 2022 (Unaudited) (continued)

AVERAGE ANNUAL TOTAL RETURNS AS OF DECEMBER 31, 2022

	INCEPTION DATE OF CLASS	1 YEAR	5 YEAR	10 YEAR
Class 1 SHARES	March 30, 1995	(18.69)%	10.25%	13.21%
Class 2 SHARES	August 16, 2006	(18.89)	9.97	12.93

TEN YEAR PORTFOLIO PERFORMANCE (12/31/12 TO 12/31/22)

The performance quoted is past performance and is not a guarantee of future results. Mutual funds are subject to certain market risks. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance data shown. For up-to-date month-end performance information please call 1-800-480-4111.

The graph illustrates comparative performance for \$10,000 invested in Class 1 Shares of the JPMorgan Insurance Trust U.S. Equity Portfolio and the S&P 500 Index from December 31, 2012 to December 31, 2022. The performance of the Portfolio assumes reinvestment of all dividends and capital gain distributions, if any. The performance of the S&P 500 Index does not reflect the deduction of expenses associated with a mutual fund and has been adjusted to reflect reinvestment of all dividends and capital gain distributions of the securities

included in the benchmark, if applicable. The S&P 500 Index is an unmanaged index generally representative of the performance of large companies in the U.S. stock market. Investors cannot invest directly in an index.

Portfolio performance does not reflect any charges imposed by the Policies or Eligible Plans. If these charges were included, the returns would be lower than shown. Portfolio performance may reflect the waiver of the Portfolio's fees and reimbursement of expenses for certain periods. Without these waivers and reimbursements, performance would have been lower.

The returns shown are based on net asset values calculated for shareholder transactions and may differ from the returns shown in the financial highlights, which reflect adjustments made to the net asset values in accordance with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2022

(Dollar values in thousands)

1. Organization

JPMorgan Insurance Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company and is a Massachusetts business trust.

The following is a separate portfolio of the Trust (the "Portfolio") covered by this report:

	Classes Offered	Diversification Classification
JPMorgan Insurance Trust U.S. Equity Portfolio	Class 1 and Class 2	Diversified

The investment objective of the Portfolio is to seek to provide high total return from a portfolio of selected equity securities.

Portfolio shares are offered only to separate accounts of participating insurance companies and Eligible Plans. Individuals may not purchase shares directly from the Portfolio.

All classes of shares have equal rights as to earnings, assets and voting privileges, except that each class may bear different transfer agency fees and distribution fees and each class has exclusive voting rights with respect to its distribution plan and administrative services plan.

J.P. Morgan Investment Management Inc. ("JPMIM"), an indirect, wholly-owned subsidiary of JPMorgan Chase & Co. ("JPMorgan"), acts as Adviser (the "Adviser") and Administrator (the "Administrator") to the Portfolio.

2. Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Portfolio in the preparation of its financial statements. The Portfolio is an investment company and, accordingly, follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 – *Investment Companies*, which is part of U.S. generally accepted accounting principles ("GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect (i) the reported amounts of assets and liabilities, (ii) disclosure of contingent assets and liabilities at the date of the financial statements, and (iii) the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

A. Valuation of Investments – Investments are valued in accordance with GAAP and the Portfolio's valuation policies set forth by, and under the supervision and responsibility of, the Board of Trustees of the Trust (the "Board"), which established the following approach to valuation, as described more fully below: (i) investments for which market quotations are readily available shall be valued at their market value and (ii) all other investments for which market quotations are not readily available shall be valued at their fair value as determined in good faith by the Board.

Under Section 2(a)(41) of the 1940 Act, the Board is required to determine fair value for securities that do not have readily available market quotations. Under SEC Rule 2a-5 (Good Faith Determinations of Fair Value), the Board may designate the performance of these fair valuation determinations to a valuation designee. The Board has designated the Adviser as the "Valuation Designee" to perform fair valuation determinations for the Portfolio on behalf of the Board subject to appropriate oversight by the Board. The Adviser, as Valuation Designee, leverages the J.P. Morgan Asset Management Americas Valuation Committee ("AVC") to help oversee and carry out the policies for the valuation of Investments held in the Portfolio. The Adviser, as Valuation Designee, remains responsible for the valuation determinations.

This oversight by the AVC includes monitoring the appropriateness of fair values based on results of ongoing valuation oversight including, but not limited to, consideration of macro or security specific events, market events, and pricing vendor and broker due diligence. The Administrator is responsible for discussing and assessing the potential impacts to the fair values on an ongoing basis, and, at least on a quarterly basis, with the AVC and the Board.

Equities and other exchange-traded instruments are valued at the last sale price or official market closing price on the primary exchange on which the instrument is traded before the net asset values ("NAV") of the Portfolio are calculated on a valuation date.

Investments in open-end investment companies ("Underlying Funds") are valued at each Underlying Fund's NAV per share as of the report date.

Futures contracts are generally valued on the basis of available market quotations.

Valuations reflected in this report are as of the report date. As a result, changes in valuation due to market events and/or issuer-related events after the report date and prior to issuance of the report are not reflected herein.

The various inputs that are used in determining the valuation of the Portfolio's investments are summarized into the three broad levels listed below.

- Level 1 – Unadjusted inputs using quoted prices in active markets for identical investments.
- Level 2 – Other significant observable inputs including, but not limited to, quoted prices for similar investments, inputs other than quoted prices that are observable for investments (such as interest rates, prepayment speeds, credit risk, etc.) or other market corroborated inputs.
- Level 3 – Significant inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Portfolio's assumptions in determining the fair value of investments).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input, both individually and in the aggregate, that is significant to the fair value measurement. The inputs or methodology used for valuing instruments are not necessarily an indication of the risk associated with investing in those instruments.

The following table represents each valuation input as presented on the Schedule of Portfolio Investments ("SOI"):

	Level 1 Quoted prices	Level 2 Other significant observable inputs	Level 3 Significant unobservable inputs	Total
Total Investments in Securities (a)	<u>\$119,808</u>	<u>\$-</u>	<u>\$-</u>	<u>\$119,808</u>
Depreciation in Other Financial Instruments				
Futures Contracts(a)	<u>\$ (9)</u>	<u>\$-</u>	<u>\$-</u>	<u>\$ (9)</u>

(a) Please refer to the SOI for specifics of portfolio holdings.

B. Securities Lending — The Portfolio is authorized to engage in securities lending in order to generate additional income. The Portfolio is able to lend to approved borrowers. Citibank N.A. ("Citibank") serves as lending agent for the Portfolio, pursuant to a Securities Lending Agency Agreement (the "Securities Lending Agency Agreement"). Securities loaned are collateralized by cash equal to at least 100% of the market value plus accrued interest on the securities lent, which is invested in Class IM Shares of the JPMorgan U.S. Government Money Market Fund and the Agency SL Class Shares of the JPMorgan Securities Lending Money Market Fund. The Portfolio retains the interest earned on cash collateral investments but is required to pay the borrower a rebate for the use of the cash collateral. In cases where the lent security is of high value to borrowers, there may be a negative rebate (i.e., a net payment from the borrower to the Portfolio). Upon termination of a loan, the Portfolio is required to return to the borrower an amount equal to the cash collateral, plus any rebate owed to the borrowers. The remaining maturities of the securities lending transactions are considered overnight and continuous. Loans are subject to termination by the Portfolio or the borrower at any time.

The net income earned on the securities lending (after payment of rebates and Citibank's fee) is included on the Statement of Operations as Income from securities lending (net). The Portfolio also receives payments from the borrower during the period of the loan, equivalent to dividends and interest earned on the securities loaned, which are recorded as Dividend or Interest income, respectively, on the Statement of Operations.

Under the Securities Lending Agency Agreement, Citibank marks to market the loaned securities on a daily basis. In the event the cash received from the borrower is less than 102% of the value of the loaned securities (105% for loans of non-U.S. securities), Citibank requests additional cash from the borrower so as to maintain a collateralization level of at least 102% of the value of the loaned securities plus accrued interest (105% for loans of non-U.S. securities), subject to certain de minimis amounts.

The value of securities out on loan is recorded as an asset on the Statement of Assets and Liabilities. The value of the cash collateral received is recorded as a liability on the Statement of Assets and Liabilities and details of collateral investments are disclosed on the SOI.

The Portfolio bears the risk of loss associated with the collateral investments and is not entitled to additional collateral from the borrower to cover any such losses. To the extent that the value of the collateral investments declines below the amount owed to a borrower, the Portfolio may incur losses that exceed the amount it earned on lending the security. Upon termination of a loan, the Portfolio may use leverage (borrow money) to repay the borrower for cash collateral posted if the Adviser does not believe that it is prudent to sell the collateral investments to fund the payment of this liability. Securities lending activity is subject to master netting arrangements.

The following table presents the Portfolio's value of the securities on loan with Citibank, net of amounts available for offset under the master netting arrangements and any related collateral received or posted by the Portfolio as of December 31, 2022.

Investment Securities on Loan, at value, Presented on the Statement of Assets and Liabilities	Cash Collateral Posted by Borrower*	Net Amount Due to Counterparty (not less than zero)
\$49	\$(49)	\$-

* Collateral posted reflects the value of securities on loan and does not include any additional amounts received from the borrower.

Securities lending also involves counterparty risks, including the risk that the loaned securities may not be returned in a timely manner or at all. Subject to certain conditions, Citibank has agreed to indemnify the Portfolio from losses resulting from a borrower's failure to return a loaned security.

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2022 (continued)

(Dollar values in thousands)

JPMIM voluntarily waived investment advisory fees charged to the Portfolio to reduce the impact of the cash collateral investment in the JPMorgan U.S. Government Money Market Fund from 0.13% to 0.06%. For the year ended December 31, 2022, JPMIM waived fees associated with the Portfolio's investment in the JPMorgan U.S. Government Money Market Fund as follows:

\$-(a)

(a) Amount rounds to less than one thousand.

The above waiver is included in the determination of earnings on cash collateral investment and in the calculation of Citibank's compensation and is included on the Statement of Operations as Income from securities lending (net).

C. Investment Transactions with Affiliates – The Portfolio invested in Underlying Funds which are advised by the Adviser. An issuer which is under common control with the Portfolio may be considered an affiliate. For the purposes of the financial statements, the Portfolio assumes the issuers listed in the table below to be affiliated issuers. The Underlying Funds' distributions may be reinvested into such Underlying Funds. Reinvestment amounts are included in the purchases at cost amounts in the table below.

For the year ended December 31, 2022

Security Description	Value at December 31, 2021	Purchases at Cost	Proceeds from Sales	Net Realized Gain (Loss)	Change in Unrealized Appreciation/ (Depreciation)	Value at December 31, 2022	Shares at December 31, 2022	Dividend Income	Capital Gain Distributions
JPMorgan U.S. Government Money Market Fund Class IM Shares, 4.12% (a) (b)	\$ 409	\$ 3,635	\$ 3,993	\$-	\$-	\$ 51	51	\$ 1*	\$-
JPMorgan U.S. Government Money Market Fund Class Institutional Shares, 4.07% (a) (b)	1,333	29,264	29,379	-	-	1,218	1,218	27	-
Total	<u>\$1,742</u>	<u>\$32,899</u>	<u>\$33,372</u>	<u>\$-</u>	<u>\$-</u>	<u>\$1,269</u>		<u>\$28</u>	<u>\$-</u>

(a) Investment in an affiliated fund, which is registered under the Investment Company Act of 1940, as amended, and is advised by J.P. Morgan Investment Management Inc.

(b) The rate shown is the current yield as of December 31, 2022.

* Amount is included on the Statement of Operations as Income from securities lending (net) (after payments of rebates and Citibank's fee).

D. Futures Contracts – The Portfolio used index futures contracts to gain or reduce exposure to the stock market, or maintain liquidity or minimize transaction costs. The Portfolio also purchased futures contracts to invest incoming cash in the market or sold futures in response to cash outflows, thereby simulating an invested position in the underlying index while maintaining a cash balance for liquidity.

Futures contracts provide for the delayed delivery of the underlying instrument at a fixed price or are settled for a cash amount based on the change in the value of the underlying instrument at a specific date in the future. Upon entering into a futures contract, the Portfolio is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount, which is referred to as the initial margin deposit. Subsequent payments, referred to as variation margin, are made or received by the Portfolio periodically and are based on changes in the market value of open futures contracts. Changes in the market value of open futures contracts are recorded as Change in net unrealized appreciation/depreciation on futures contracts on the Statement of Operations. Realized gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported on the Statement of Operations at the closing or expiration of the futures contract. Securities deposited as initial margin are designated on the SOI, while cash deposited, which is considered restricted, is recorded on the Statement of Assets and Liabilities. A receivable from and/or a payable to brokers for the daily variation margin is also recorded on the Statement of Assets and Liabilities.

The use of futures contracts exposes the Portfolio to equity risk. The Portfolio may be subject to the risk that the change in the value of the futures contract may not correlate perfectly with the underlying instrument. Use of long futures contracts subjects the Portfolio to risk of loss in excess of the amounts shown on the Statement of Assets and Liabilities, up to the notional amount of the futures contracts. Use of short futures contracts subjects the Portfolio to unlimited risk of loss. The Portfolio may enter into futures contracts only on exchanges or boards of trade. The exchange or board of trade acts as the counterparty to each futures transaction; therefore, the Portfolio's credit risk is limited to failure of the exchange or board of trade. Under some circumstances, futures exchanges may establish daily limits on the amount that the price of a futures contract can vary from the previous day's settlement price, which could effectively prevent liquidation of positions.

The Portfolio's futures contracts are not subject to master netting arrangements (the right to close out all transactions traded with a counterparty and net amounts owed or due across transactions).

The table below discloses the volume of the Portfolio's futures contracts activity during the year ended December 31, 2022:

Futures Contracts:

Average Notional Balance Long	\$1,083
Ending Notional Balance Long	579

E. Security Transactions and Investment Income – Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). Securities gains and losses are calculated on a specifically identified cost basis.

Dividend income, net of foreign taxes withheld, if any, is recorded on the ex-dividend date or when the Portfolio first learns of the dividend.

To the extent such information is publicly available, the Portfolio records distributions received in excess of income earned from underlying investments as a reduction of cost of investments and/or realized gain. Such amounts are based on estimates if actual amounts are not available and actual amounts of income, realized gain and return of capital may differ from the estimated amounts. The Portfolio adjusts the estimated amounts of the components of distributions (and consequently its net investment income) as necessary, once the issuers provide information about the actual composition of the distributions.

F. Allocation of Income and Expenses – Expenses directly attributable to the Portfolio are charged directly to the Portfolio, while the expenses attributable to more than one portfolio of the Trust are allocated among the applicable portfolios. Investment income, realized and unrealized gains and losses and expenses, other than class-specific expenses, are allocated daily to each class of shares based upon the proportion of net assets of each class at the beginning of each day.

Transfer agency fees are class-specific expenses. The amount of the transfer agency fees charged to each share class of the Portfolio for the year ended December 31, 2022 are as follows:

	Class 1	Class 2	Total
Transfer agency fees	\$2	\$(a)	\$2

(a) Amount rounds to less than one thousand.

G. Federal Income Taxes – The Portfolio is treated as a separate taxable entity for Federal income tax purposes. The Portfolio's policy is to comply with the provisions of the Internal Revenue Code (the "Code") applicable to regulated investment companies and to distribute to shareholders all of its distributable net investment income and net realized capital gains on investments. Accordingly, no provision for Federal income tax is necessary. The Portfolio is also a segregated portfolio of assets for insurance purposes and intends to comply with the diversification requirements of Sub-chapter L of the Code. Management has reviewed the Portfolio's tax positions for all open tax years and has determined that as of December 31, 2022, no liability for Federal income tax is required in the Portfolio's financial statements for net unrecognized tax benefits. However, management's conclusions may be subject to future review based on changes in, or the interpretation of, the accounting standards or tax laws and regulations. The Portfolio's Federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

H. Distributions to Shareholders – Distributions from net investment income, if any, are generally declared and paid at least annually and are declared separately for each class. No class has preferential dividend rights; differences in per share rates are due to differences in separate class expenses. Net realized capital gains, if any, are distributed at least annually. The amount of distributions from net investment income and net realized capital gains is determined in accordance with Federal income tax regulations, which may differ from GAAP. To the extent these "book/tax" differences are permanent in nature (i.e., that they result from other than timing of recognition – "temporary differences"), such amounts are reclassified within the capital accounts based on their Federal tax basis treatment.

The following amounts were reclassified within the capital accounts:

	Paid-in-Capital	Accumulated undistributed (distributions in excess of) net investment income	Accumulated net realized gains (losses)
	\$–	\$(a)	\$(a)

(a) Amount rounds to less than one thousand.

The reclassifications for the Portfolio relate primarily to tax adjustments on certain investments.

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2022 (continued)

(Dollar values in thousands)

3. Fees and Other Transactions with Affiliates

A. Investment Advisory Fee – Pursuant to an Investment Advisory Agreement, the Adviser manages the investments of the Portfolio and for such services is paid a fee. The investment advisory fee is accrued daily and paid monthly at an annual rate of 0.55% of the Portfolio's average daily net assets.

The Adviser waived investment advisory fees and/or reimbursed expenses as outlined in Note 3.E.

B. Administration Fee – Pursuant to an Administration Agreement, the Administrator provides certain administration services to the Portfolio. In consideration of these services, the Administrator receives a fee accrued daily and paid monthly at an annual rate of 0.075% of the first \$10 billion of the Portfolio's average daily net assets, plus 0.050% of the Portfolio's average daily net assets between \$10 billion and \$20 billion, plus 0.025% of the Portfolio's average daily net assets between \$20 billion and \$25 billion, plus 0.010% of the Portfolio's average daily net assets in excess of \$25 billion. For the year ended December 31, 2022, the effective rate was 0.075% of the Portfolio's average daily net assets, notwithstanding any fee waivers and/or expense reimbursements.

The Administrator waived administration fees as outlined in Note 3.E.

JPMorgan Chase Bank, N.A. ("JPMCB"), a wholly-owned subsidiary of JPMorgan, serves as the Portfolio's sub-administrator (the "Sub-administrator"). For its services as Sub-administrator, JPMCB receives a portion of the fees payable to the Administrator.

C. Distribution Fees – Pursuant to a Distribution Agreement, JPMorgan Distribution Services, Inc. ("JPMDS"), an indirect, wholly-owned subsidiary of JPMorgan, serves as the Portfolio's principal underwriter and promotes and arranges for the sale of the Portfolio's shares.

The Board has adopted a Distribution Plan (the "Distribution Plan") for Class 2 Shares of the Portfolio pursuant to Rule 12b-1 under the 1940 Act. Class 1 Shares of the Portfolio do not charge a distribution fee. The Distribution Plan provides that the Portfolio shall pay, with respect to the applicable share classes, distribution fees, including payments to JPMDS, at an annual rate of 0.25% of the average daily net assets of Class 2 Shares.

D. Custodian and Accounting Fees – JPMCB provides portfolio custody and accounting services to the Portfolio. For performing these services, the Portfolio pays JPMCB transaction and asset-based fees that vary according to the number of transactions and positions, plus out-of-pocket expenses. The amounts paid directly to JPMCB by the Portfolio for custody and accounting services are included in Custodian and accounting fees on the Statement of Operations.

Interest income earned on cash balances at the custodian, if any, is included in Interest income from affiliates on the Statement of Operations.

Interest expense paid to the custodian related to cash overdrafts, if any, is included in Interest expense to affiliates on the Statement of Operations.

E. Waivers and Reimbursements – The Adviser (for all share classes), Administrator (for all share classes) and/or JPMDS (for Class 2 Shares) have contractually agreed to waive fees and/or reimburse the Portfolio to the extent that total annual operating expenses of the Portfolio (excluding acquired fund fees and expenses other than certain money market fund fees as described below, dividend and interest expenses related to short sales, interest, taxes, expenses related to litigation and potential litigation, expenses related to trustee elections and extraordinary expenses) exceed the percentages of the Portfolio's respective average daily net assets as shown in the table below:

	Class 1	Class 2
	0.80%	1.05%

The expense limitation agreement was in effect for the year ended December 31, 2022 and the contractual expense limitation percentages in the table above are in place until at least April 30, 2023.

For the year ended December 31, 2022, the Portfolio's service providers did not waive fees and/or reimburse expenses for the Portfolio.

Additionally, the Portfolio may invest in one or more money market funds advised by the Adviser (affiliated money market funds). The Adviser, Administrator and/or JPMDS, have contractually agreed to waive fees and/or reimburse expenses in an amount sufficient to offset the respective net fees each collects from the affiliated money market fund on the Portfolio's investment in such affiliated money market fund, except for investments of securities lending cash collateral. None of these parties expect the Portfolio to repay any such waived fees and/or reimbursed expenses in future years.

The amount of these waivers resulting from investments in these money market funds for the year ended December 31, 2022 was \$3.

JPMIM voluntarily agreed to reimburse the Portfolio for the Trustee Fees paid to one of the interested Trustees. For the year ended December 31, 2022 the amount of this reimbursement was \$1.

F. Other – Certain officers of the Trust are affiliated with the Adviser, the Administrator and JPMS. Such officers, with the exception of the Chief Compliance Officer, receive no compensation from the Portfolio for serving in their respective roles.

The Board designated and appointed a Chief Compliance Officer to the Portfolio pursuant to Rule 38a-1 under the 1940 Act. The Portfolio, along with affiliated funds, makes reimbursement payments, on a pro-rata basis, to the Administrator for a portion of the fees associated with the office of the Chief Compliance Officer. Such fees are included in Trustees' and Chief Compliance Officer's fees on the Statement of Operations.

The Trust adopted a Trustee Deferred Compensation Plan (the "Plan") which allows the independent Trustees to defer the receipt of all or a portion of compensation related to performance of their duties as Trustees. The deferred fees are invested in various J.P. Morgan Funds until distribution in accordance with the Plan.

The Securities and Exchange Commission ("SEC") has granted an exemptive order permitting the Portfolio to engage in principal transactions with J.P. Morgan Securities LLC, an affiliated broker, involving taxable money market instruments, subject to certain conditions.

4. Investment Transactions

During the year ended December 31, 2022, purchases and sales of investments (excluding short-term investments) were as follows:

	Purchases (excluding U.S. Government)	Sales (excluding U.S. Government)
	\$63,502	\$74,461

During the year ended December 31, 2022, there were no purchases or sales of U.S. Government securities.

5. Federal Income Tax Matters

For Federal income tax purposes, the estimated cost and unrealized appreciation (depreciation) in value of investments held at December 31, 2022 were as follows:

	Aggregate Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
	\$82,868	\$39,267	\$2,336	\$36,931

The difference between book and tax basis appreciation (depreciation) on investments is primarily attributed to tax adjustments on certain investments and wash sale loss deferrals.

The tax character of distributions paid during the year ended December 31, 2022 was as follows:

	Ordinary Income*	Net Long-Term Capital Gains	Total Distributions Paid
	\$7,553	\$12,352	\$19,905

* Short-term gain distributions are treated as ordinary income for income tax purposes.

The tax character of distributions paid during the year ended December 31, 2021 was as follows:

	Ordinary Income*	Net Long-Term Capital Gains	Total Distributions Paid
	\$3,548	\$4,136	\$7,684

* Short-term gain distributions are treated as ordinary income for income tax purposes.

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2022 (continued)

(Dollar values in thousands)

As of December 31, 2022, the estimated components of net assets (excluding paid-in-capital) on a tax basis were as follows:

	Current Distributable Ordinary Income	Current Distributable Long-Term Capital Gain (Tax Basis Capital Loss Carryover)	Unrealized Appreciation (Depreciation)
	\$904	\$5,546	\$36,931

The cumulative timing differences primarily consist of tax adjustments on certain investments and wash sale loss deferrals.

As of December 31, 2022, the Portfolio did not have any net capital loss carryforwards.

6. Borrowings

The Portfolio relies upon an exemptive order granted by the SEC (the "Order") permitting the establishment and operation of an Interfund Lending Facility (the "Facility"). The Facility allows the Portfolio to directly lend and borrow money to or from any other fund relying upon the Order at rates beneficial to both the borrowing and lending funds. Advances under the Facility are taken primarily for temporary or emergency purposes, including the meeting of redemption requests that otherwise might require the untimely disposition of securities, and are subject to the Portfolio's borrowing restrictions. The interfund loan rate is determined, as specified in the Order, by averaging the current repurchase agreement rate and the current bank loan rate. The Order was granted to the Trust and may be relied upon by the Portfolio because the Portfolio and the series of the Trust are all investment companies in the same "group of investment companies" (as defined in Section 12(d)(1)(G) of the 1940 Act).

The Portfolio had no borrowings outstanding from another fund, or loans outstanding to another fund, during the year ended December 31, 2022.

The Trust and JPMCB have entered into a financing arrangement. Under this arrangement, JPMCB provides an unsecured, uncommitted credit facility in the aggregate amount of \$100 million to certain of the J.P. Morgan Funds, including the Portfolio. Advances under the arrangement are taken primarily for temporary or emergency purposes, including the meeting of redemption requests that otherwise might require the untimely disposition of securities, and are subject to the Portfolio's borrowing restrictions. Interest on borrowings is payable at a rate determined by JPMCB at the time of borrowing. This agreement has been extended until October 30, 2023.

The Portfolio had no borrowings outstanding from the unsecured, uncommitted credit facility during the year ended December 31, 2022.

The Trust, along with certain other trusts for J.P. Morgan Funds ("Borrowers"), has entered into a joint syndicated senior unsecured revolving credit facility totaling \$1.5 billion ("Credit Facility") with various lenders and The Bank of New York Mellon, as administrative agent for the lenders. This Credit Facility provides a source of funds to the Borrowers for temporary and emergency purposes, including the meeting of redemption requests that otherwise might require the untimely disposition of securities. Under the terms of the Credit Facility, a borrowing portfolio must have a minimum of \$25 million in adjusted net asset value and not exceed certain adjusted net asset coverage ratios prior to and during the time in which any borrowings are outstanding. If a portfolio does not comply with the aforementioned requirements, the portfolio must remediate within three business days with respect to the \$25 million minimum adjusted net asset value or within one business day with respect to certain asset coverage ratios or the administrative agent at the request of, or with the consent of, the lenders may terminate the Credit Facility and declare any outstanding borrowings to be due and payable immediately.

Interest associated with any borrowing under the Credit Facility is charged to the borrowing portfolio at a rate of interest equal to 1.00% (the "Applicable Margin"), plus the greater of the federal funds effective rate or one month London Interbank Offered Rate ("LIBOR"). The annual commitment fee to maintain the Credit Facility is 0.15% and is incurred on the unused portion of the Credit Facility and is allocated to all participating portfolios pro rata based on their respective net assets. Effective August 9, 2022, the Credit Facility has been amended and restated for a term of 364 days, unless extended, and to include a change in the interest associated with any borrowing to the higher, on the day of the borrowing, of (a) the federal funds effective rate, or (b) the one-month Adjusted SOFR Rate plus the Applicable Margin.

The Portfolio did not utilize the Credit Facility during the year ended December 31, 2022.

7. Risks, Concentrations and Indemnifications

In the normal course of business, the Portfolio enters into contracts that contain a variety of representations which provide general indemnifications. The Portfolio's maximum exposure under these arrangements is unknown. The amount of exposure would depend on future claims that may be brought against the Portfolio. However, based on experience, the Portfolio expects the risk of loss to be remote.

As of December 31, 2022, the Portfolio had three individual shareholder and/or non-affiliated omnibus accounts each owning more than 10% of the Portfolio's outstanding shares, and, collectively owning 63.8% of the Portfolio's outstanding shares.

Significant shareholder transactions by these shareholders may impact the Portfolio's performance and liquidity.

LIBOR is intended to represent the rate at which contributing banks may obtain short-term borrowings from each other in the London interbank market. On March 5, 2021, the U.K. Financial Conduct Authority ("FCA") publicly announced that (i) immediately after December 31, 2021, publication of the 1-week and 2-month U.S. Dollar LIBOR settings will permanently cease; (ii) immediately after June 30, 2023, publication of the overnight and 12-month U.S. Dollar LIBOR settings will permanently cease; and (iii) immediately after June 30, 2023, the 1-month, 3-month and 6-month U.S. Dollar LIBOR settings will cease to be provided or, subject to the FCA's consideration of the case, be provided on a synthetic basis and no longer be representative of the underlying market and economic reality they are intended to measure and that representativeness will not be restored. There is no assurance that the dates announced by the FCA will not change or that the administrator of LIBOR and/or regulators will not take further action that could impact the availability, composition or characteristics of LIBOR or the currencies and/or tenors for which LIBOR is published. In addition, certain regulated entities ceased entering into most new LIBOR contracts in connection with regulatory guidance or prohibitions. Public and private sector industry initiatives are currently underway to implement new or alternative reference rates to be used in place of LIBOR. There is no assurance that any such alternative reference rate will be similar to or produce the same value or economic equivalence as LIBOR or that it will have the same volume or liquidity as did LIBOR prior to its discontinuance, unavailability or replacement, all of which may affect the value, volatility, liquidity or return on certain of the Portfolio's loans, notes, derivatives and other instruments or investments comprising some or all of the Portfolio's investments and result in costs incurred in connection with changing reference rates used for positions closing out positions and entering into new trades. Certain of the Portfolio's investments may transition from LIBOR prior to the dates announced by the FCA. The transition from LIBOR to alternative reference rates may result in operational issues for the Portfolio or its investments. No assurances can be given as to the impact of the LIBOR transition (and the timing of any such impact) on the Portfolio and its investments.

The Portfolio is subject to infectious disease epidemics/pandemics risk. The worldwide outbreak of COVID-19 has negatively affected economies, markets and individual companies throughout the world. The effects of this COVID-19 pandemic to public health, and business and market conditions, including among other things, reduced consumer demand and economic output, supply chain disruptions and increased government spending may continue to have a significant negative impact on the performance of the Portfolio's investments, increase the Portfolio's volatility, exacerbate other pre-existing political, social and economic risks to the Portfolio and negatively impact broad segments of businesses and populations. In addition, governments, their regulatory agencies, or self-regulatory organizations have taken or may take actions in response to the pandemic that affect the instruments in which the Portfolio invests, or the issuers of such instruments, in ways that could also have a significant negative impact on the Portfolio's investment performance. The duration and extent of COVID-19 and associated economic and market conditions and uncertainty over the long-term cannot be reasonably estimated at this time. The ultimate impact of COVID-19 and the extent to which the associated conditions impact the Portfolio will also depend on future developments, which are highly uncertain, difficult to accurately predict and subject to frequent changes.

8. Other Matters

On December 12, 2022, the Board approved a proposal to reorganize the Portfolio into a newly organized series (the "Acquiring Fund") of Lincoln Variable Insurance Products Trust (the "Reorganization").

The Acquiring Fund has the same investment objective and substantially identical principal investment strategies and principal risks as the Portfolio. The Acquiring Fund's investment adviser will be Lincoln Investment Advisors Corporation, and it is anticipated that JPMIM will be retained as the sub-adviser to the Acquiring Fund upon consummation of the Reorganization. Upon the closing of the Reorganization, the Class 1 Shares and Class 2 Shares of the Portfolio will be exchanged for the same value of Standard Class Shares and Service Class Shares, respectively, of the Acquiring Fund.

The Reorganization is subject to the approval of the Portfolio's shareholders at a special shareholder meeting to be held on or about March 15, 2023. If shareholder approval of the Reorganization is obtained, the Reorganization is expected to be effective on or about May 1, 2023. All costs related to the Reorganization will be borne by Lincoln Investment Advisors Corporation and JPMIM and not by the Portfolio or Acquiring Fund.

More detailed information about the reorganization was included in a proxy statement provided to shareholders.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees of JPMorgan Insurance Trust and Shareholders of JPMorgan Insurance Trust U.S. Equity Portfolio

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of portfolio investments, of JPMorgan Insurance Trust U.S. Equity Portfolio (one of the portfolios constituting JPMorgan Insurance Trust, referred to hereafter as the “Portfolio”) as of December 31, 2022, the related statement of operations for the year ended December 31, 2022, the statements of changes in net assets for each of the two years in the period ended December 31, 2022, including the related notes, and the financial highlights for each of the five years in the period ended December 31, 2022 (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Portfolio as of December 31, 2022, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended December 31, 2022 and the financial highlights for each of the five years in the period ended December 31, 2022 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Portfolio’s management. Our responsibility is to express an opinion on the Portfolio’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Portfolio in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2022 by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

/s/ PricewaterhouseCoopers LLP
New York, New York
February 15, 2023

We have served as the auditor of one or more investment companies in the JPMorgan Funds complex since 1993.

Interested Trustees

Robert F. Deutsch** (1957); Trustee since 2014.	Retired; Head of ETF Business for JPMorgan Asset Management (2013-2017); Head of Global Liquidity Business for JPMorgan Asset Management (2003-2013).	179	Treasurer and Director of the JUST Capital Foundation (2017-present).
Nina O. Shenker** (1957); Trustee since 2022.	Vice Chair (2017-2021), General Counsel and Managing Director (2008-2016), Associate General Counsel and Managing Director (2004-2008), J.P. Morgan Asset & Wealth Management.	179	Director and Member of Legal and Human Resources Subcommittees, American Jewish Joint Distribution Committee (2018-present).

(1) The year shown is the first year in which a Trustee became a member of any of the following: the JPMorgan Mutual Fund Board, the JPMorgan ETF Board, the heritage J.P. Morgan Funds or the heritage One Group Mutual Funds. Trustees serve an indefinite term, until resignation, retirement, removal or death. The Board's current retirement policy sets retirement at the end of the calendar year in which the Trustee attains the age of 75, provided that any Board member who was a member of the JPMorgan Mutual Fund Board prior to January 1, 2022 and was born prior to January 1, 1950 shall retire from the Board at the end of the calendar year in which the Trustee attains the age of 78.

(2) A Fund Complex means two or more registered investment companies that hold themselves out to investors as related companies for purposes of investment and investor services or have a common investment adviser or have an investment adviser that is an affiliated person of the investment adviser of any of the other registered investment companies. The J.P. Morgan Funds Complex for which the Board of Trustees serves currently includes nine registered investment companies (179 J.P. Morgan Funds).

* In connection with prior employment with JPMorgan Chase, Ms. Pardo was the recipient of non-qualified pension plan payments from JPMorgan Chase in the amount of approximately \$2,055 per month, which she irrevocably waived effective January 1, 2013, and deferred compensation payments from JPMorgan Chase in the amount of approximately \$7,294 per year, which ended in January 2013. In addition, Ms. Pardo receives payments from a fully-funded qualified plan, which is not an obligation of JPMorgan Chase.

** Designation as an "Interested Trustee" is based on prior employment by the Adviser or an affiliate of the Adviser or interests in a control person of the Adviser.

SCHEDULE OF SHAREHOLDER EXPENSES

(Unaudited)

Hypothetical \$1,000 Investment

As a shareholder of the Portfolio, you incur ongoing costs, including investment advisory fees, administration fees, distribution fees (for Class 2 Shares) and other Portfolio expenses. Because the Portfolio is a funding vehicle for Policies and Eligible Plans you may also incur sales charges and other fees relating to the Policies or Eligible Plans. The examples below are intended to help you understand your ongoing costs (in dollars) of investing in the Portfolio, but not the costs of the Policies or Eligible Plans, and to compare these ongoing costs with the ongoing costs of investing in other mutual funds. The examples assume that you had a \$1,000 investment in each Class at the beginning of the reporting period, July 1, 2022, and continued to hold your shares at the end of the reporting period, December 31, 2022.

Actual Expenses

For each Class of the Portfolio in the table below, the first line provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line of each Class under the heading titled "Expenses Paid During the Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of each Class in the table below provides information about hypothetical account values and hypothetical expenses based on the Class' actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Class' actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in each Class of the Portfolio and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales charges (loads), or redemption fees, or the costs associated with the Policies and Eligible Plans through which the Portfolio is held. Therefore, the second line for each Class in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher. The examples also assume all dividends and distributions have been reinvested.

	Beginning Account Value July 1, 2022	Ending Account Value December 31, 2022	Expenses Paid During the Period*	Annualized Expense Ratio
JPMorgan Insurance Trust U.S. Equity Portfolio				
Class 1				
Actual	\$1,000.00	\$1,021.30	\$3.97	0.78%
Hypothetical	1,000.00	1,021.27	3.97	0.78
Class 2				
Actual	1,000.00	1,020.00	5.24	1.03
Hypothetical	1,000.00	1,020.01	5.24	1.03

* Expenses are equal to each Class' respective annualized expense ratio, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

BOARD APPROVAL OF INVESTMENT ADVISORY AGREEMENT

(Unaudited)

The Board of Trustees (the “Board” or the “Trustees”) has established various standing committees composed of Trustees with diverse backgrounds, to which the Board has assigned specific subject matter responsibilities to further enhance the effectiveness of the Board’s oversight and decision making.

Effective January 2022, the Board consolidated with the J.P. Morgan Exchange-Traded Fund Trust Board and now consists of Trustees from both Boards. The Board and its investment committees (Money Market and Alternative Products Committee, Equity Committee, and Fixed Income Committee) met regularly throughout the year and, at each meeting, considered factors that are relevant to their annual consideration of the continuation of the investment advisory agreements. The Board also met for the specific purpose of considering investment advisory agreement annual renewals. The Board held meetings on June 21-22, 2022 and August 9-11, 2022, at which the Trustees considered the continuation of the investment advisory agreement for the Portfolio whose annual report is contained herein (the “Advisory Agreement”). At the June meeting, the Board’s investment committees met to review and consider performance, expense and related information for the J.P. Morgan Funds. Each investment committee reported to the full Board, which then considered each investment committee’s preliminary findings. At the August meeting, the Trustees continued their review and consideration. The Trustees, including a majority of the Trustees who are not parties to the Advisory Agreement or “interested persons” (as defined in the Investment Company Act of 1940) of any party to the Advisory Agreement or any of their affiliates, approved the continuation of the Advisory Agreement on August 11, 2022.

As part of their review of the Advisory Agreement, the Trustees considered and reviewed performance and other information about the Portfolio received from the Adviser. This information includes the Portfolio’s performance as compared to the performance of its peers and benchmarks, and analyses by the Adviser of the Portfolio’s performance. In addition, at each of their regular meetings throughout the year, the Trustees considered reports on the performance of certain J.P. Morgan Funds (including certain ETFs, beginning in February 2022) provided by an independent investment consulting firm (“independent consultant”). In addition, in preparation for the June and August meetings, the Trustees requested, received and evaluated extensive materials from the Adviser, including performance and expense information compiled by Broadridge, using data from Lipper Inc. and/or Morningstar Inc., independent providers of investment company data (together, “Broadridge”). Before voting on the Advisory Agreement, the Trustees reviewed the Advisory Agreement with representatives of the Adviser, counsel to the Trust, and independent legal counsel and received a memorandum from independent legal counsel to the Trustees discussing the legal standards for their consideration of the Advisory Agreement. The Trustees also

discussed the Advisory Agreement with independent legal counsel in executive sessions at which no representatives of the Adviser were present.

A summary of the material factors evaluated by the Trustees in determining whether to approve the Advisory Agreement is provided below. Each Trustee attributed different weights to the various factors and no factor alone was considered determinative. The Trustees considered information provided with respect to the Portfolio throughout the year, including additional reporting and information provided in connection with the COVID-19 pandemic, as well as materials furnished specifically in connection with the annual review process. From year to year, the Trustees consider and place emphasis on relevant information in light of changing circumstances in market and economic conditions.

After considering and weighing the factors and information they had received, the Trustees found that the compensation to be received by the Adviser from the Portfolio under the Advisory Agreement was fair and reasonable under the circumstances, and determined that the continuance of the Advisory Agreement was in the best interests of the Portfolio and its shareholders.

Nature, Extent and Quality of Services Provided by the Adviser

The Trustees received and considered information regarding the nature, extent and quality of services provided to the Portfolio under the Advisory Agreement. The Trustees took into account information furnished throughout the year at Trustee meetings, as well as the materials furnished specifically in connection with this annual review process. Among other things, the Trustees considered:

- (i) The background and experience of the Adviser’s senior management and investment personnel, including personnel changes, if any;
- (ii) The qualifications, backgrounds and responsibilities of the portfolio management team primarily responsible for the day-to-day management of the Portfolio, including personnel changes, if any;
- (iii) The investment strategy for the Portfolio, and the infrastructure supporting the portfolio management team;
- (iv) Information about the structure and distribution strategy for the Portfolio and how it fits with the Trust’s other fund offerings;
- (v) The administration services provided by the Adviser in its role as Administrator;
- (vi) Their knowledge of the nature and quality of the services provided by the Adviser and its affiliates gained from their experience as Trustees of the Trust and in the financial industry generally;
- (vii) The overall reputation and capabilities of the Adviser and its affiliates;
- (viii) The commitment of the Adviser to provide high quality

service to the Portfolio;

(ix) Their overall confidence in the Adviser's integrity;

(x) The Adviser's responsiveness to requests for additional information, questions or concerns raised by them, including the Adviser's willingness to consider and implement organizational and operational changes designed to improve investment results and the services provided to the Portfolio; and

(xi) The Adviser's business continuity plan and steps the Adviser and its affiliates have taken to provide ongoing services to the Portfolio during the COVID-19 pandemic, and the Adviser's and its affiliates' success in continuing to provide services to the Portfolio and its shareholders throughout this period.

Based upon these considerations and other factors, the Trustees concluded that they were satisfied with the nature, extent and quality of the services provided to the Portfolio by the Adviser.

Costs of Services Provided and Profitability to the Adviser and its Affiliates

The Trustees received and considered information regarding the profitability to the Adviser and its affiliates from providing services to the Portfolio. The Trustees reviewed and discussed this information. The Trustees recognized that this information is not audited and represents the Adviser's determination of its and its affiliates' revenues from the contractual services provided to the Portfolio, less expenses of providing such services. Expenses include direct and indirect costs and are calculated using an allocation methodology developed by the Adviser and reviewed with the Board. The Trustees also recognized that it is difficult to make comparisons of profitability from fund investment advisory contracts because comparative information is not generally publicly available and is affected by numerous factors, including the structure of the particular adviser, the types of funds it manages, its business mix, numerous assumptions regarding allocations and the fact that publicly-traded fund managers' operating profits and net income are net of distribution and marketing expenses. Based upon their review, and taking into consideration the factors noted above, the Trustees concluded that the profitability to the Adviser under the Advisory Agreement was not unreasonable in light of the services and benefits provided to the Portfolio.

The Trustees also considered that JPMDS, an affiliate of the Adviser, and the Adviser earn fees from the Portfolio for providing administration services. These fees were shown separately in the profitability analysis presented to the Trustees. The Trustees also considered the payments of Rule 12b-1 fees to JPMDS, which also acts as the Portfolio's distributor, and that these fees are in turn generally paid to insurance companies that use the Portfolio in connection with insurance products they issue, including financial intermediaries that are affiliates of the Adviser (although they are

retained by JPMDS in certain instances). The Trustees also considered the fees earned by JPMorgan Chase Bank, N.A. ("JPMCB"), an affiliate of the Adviser, for custody, fund accounting and other related services for the Portfolio, and the profitability of the arrangements to JPMCB.

Fall-Out Benefits

The Trustees reviewed information regarding potential "fall-out" or ancillary benefits received by the Adviser and its affiliates as a result of their relationship with the Portfolio. The Trustees considered that the J.P. Morgan Funds' operating accounts are held at JPMCB, which, as a result, will receive float benefits for certain J.P. Morgan Funds, as applicable. The Trustees also noted that the Adviser supports a diverse set of products and services, which benefits the Adviser by allowing it to leverage its infrastructure to serve additional clients, including benefits that may be received by the Adviser and its affiliates in connection with the Portfolio's potential investments in other funds advised by the Adviser. The Trustees also reviewed the Adviser's allocation of fund brokerage for the J.P. Morgan Funds complex, including allocations to brokers who provide research to the Adviser, as well as the Adviser's use of affiliates to provide other services and the benefits to such affiliates of doing so.

Economies of Scale

The Trustees considered the extent to which the Portfolio may benefit from potential economies of scale. The Trustees considered that there may not be a direct relationship between economies of scale realized by the Portfolio and those realized by the Adviser as assets increase. The Trustees considered the extent to which the Portfolio was priced to scale and whether it would be appropriate to add advisory fee breakpoints, but noted that the Portfolio has implemented fee waivers and contractual expense limitations ("Fee Caps") which allow the Portfolio's shareholders to share potential economies of scale from its inception and that the fees remain satisfactory relative to peer funds. The Trustees considered the benefits to the Portfolio of the use of an affiliated distributor and custodian, including the ability to rely on existing infrastructure supporting distribution, custodial and transfer agent services, and the ability to negotiate competitive fees for the Portfolio.

The Trustees further considered the Adviser's and JPMDS's ongoing investments in their business in support of the Portfolio, including the Adviser's and/or JPMDS's investments in trading systems, technology (including improvements to the J.P. Morgan Funds' website, and cybersecurity improvements), retention of key talent, and regulatory support enhancements.

The Trustees concluded that the current fee structure for the Portfolio, including Fee Caps that the Adviser has in place that serve to limit the overall net expense ratios of the Portfolio at competitive levels, was reasonable. The Trustees concluded that the Portfolio's shareholders received the benefits of

BOARD APPROVAL OF INVESTMENT ADVISORY AGREEMENT

(Unaudited) (continued)

potential economies of scale through the Fee Caps and the Adviser's reinvestment in its operations to serve the Portfolio and its shareholders. The Trustees noted that the Adviser's reinvestment ensures sufficient resources in terms of personnel and infrastructure to support the Portfolio.

Fees Relative to Adviser's Other Clients

The Trustees received and considered information about the nature and extent of investment advisory services and fee rates offered to other clients of the Adviser, including, to the extent applicable, institutional separate accounts, collective investment trusts, other registered investment companies and/or private funds sub-advised by the Adviser, for investment management styles substantially similar to that of the Portfolio. The Trustees considered the complexity of investment management for registered investment companies relative to the Adviser's other clients and noted differences, as applicable, in the fee structure and the regulatory, legal and other risks and responsibilities of providing services to the different clients. The Trustees considered that serving as an adviser to a registered investment company involves greater responsibilities and risks than acting as a sub-adviser and observed that sub-advisory fees may be lower than those charged by the Adviser to the Portfolio. The Trustees also noted that the adviser, not the applicable investment company, typically bears the sub-advisory fee and that many responsibilities related to the advisory function are typically retained by the primary adviser. The Trustees concluded that the fee rates charged to the Portfolio in comparison to those charged to the Adviser's other clients were reasonable.

Investment Performance

The Trustees receive and consider information about the Portfolio's performance throughout the year. In addition, the Trustees received and considered absolute and/or relative performance information for the Portfolio in a report prepared by Broadridge. The Trustees considered the total return performance information, which included the ranking of the Portfolio within a performance universe comprised of funds with the same Broadridge investment classification and objective (the "Universe"), as well as a subset of funds within the Universe (the "Peer Group"), by total return for the applicable one-, three- and five-year periods. The Trustees reviewed a description of Broadridge's methodology for selecting mutual funds in the Portfolio's Universe and Peer Group and noted that Universe and Peer Group quintile rankings were not calculated if the number of funds in the Universe and/or Peer Group did not meet a predetermined minimum. The Broadridge materials provided to the Trustees highlighted information with respect to a representative class to assist the Trustees in their review. As part of this review, the Trustees also reviewed the Portfolio's performance against its benchmark and considered the performance information

provided for the Portfolio at regular Board meetings by the Adviser. The Trustees also engaged with the Adviser to consider what steps might be taken to improve performance, as applicable. The Broadridge performance data noted by the Trustees as part of their review and the determinations made by the Trustees with respect to the Portfolio's performance are summarized below:

The Trustees noted that the Portfolio's performance for Class 1 and Class 2 shares was in the first quintile of both the Peer Group and the Universe for each of the one-, three- and five-year periods ended December 31, 2021. The Trustees discussed the performance and investment strategy of the Portfolio with the Adviser and based upon this discussion and various other factors, concluded that the Portfolio's performance was satisfactory.

Advisory Fees and Expense Ratios

The Trustees considered the contractual advisory fee rate and administration fee rate paid by the Portfolio to the Adviser and compared the combined rate to the information prepared by Broadridge concerning management fee rates paid by other funds in the same Broadridge category as the Portfolio. The Trustees recognized that Broadridge reported the Portfolio's management fee rate as the combined contractual advisory fee and administration fee rates. The Trustees also reviewed information about other expenses and the expense ratios for the Portfolio and noted that Universe and Peer Group quintile rankings were not calculated if the number of funds in the Universe and/or Peer Groups did not meet a predetermined minimum. The Trustees considered the Fee Caps currently in place for the Portfolio, the net advisory fee rate after taking into account any waivers and/or reimbursements and, where deemed appropriate by the Trustees, additional waivers and/or reimbursements. The Trustees recognized that it can be difficult to make comparisons of advisory fees because there are variations in the services that are included in the fees paid by other funds. The Trustees' determinations as a result of the review of the Portfolio's advisory fees and expense ratios are summarized below:

The Trustees noted that the Portfolio's net advisory fee for Class 1 shares was in the third quintile of both the Peer Group and Universe, and that the actual total expenses for Class 1 shares were in the fourth quintiles of both the Peer Group and Universe. The Trustees noted that the Portfolio's net advisory fee for Class 2 shares was in the second and fourth quintiles of the Peer Group and Universe, respectively, and that the actual total expenses for Class 2 shares were in the third and fourth quintile of the Peer Group and Universe, respectively. After considering the factors identified above, in light of this information, the Trustees concluded that the advisory fee was satisfactory in light of the services provided to the Portfolio.

TAX LETTER

(Unaudited)

(Dollar values in thousands)

Dividends Received Deduction (DRD)

The Portfolio had 23.31%, or maximum allowable percentage, of ordinary income distributions eligible for the dividends received deduction for corporate shareholders for the fiscal year ended December 31, 2022.

Long Term Capital Gain

The Portfolio distributed \$12,352, or maximum allowable amount, of long-term capital gain dividends for the fiscal year ended December 31, 2022.
